Navigation

- *Visitors to your website have to be able to find desired information on your website, and all pages should have the same navigation structure throughout the site.*
- *Typically, this involves the company / organization logo or name in the top left, major links along the left or right edges of each page, and a few links to important sections of the site along the bottom.*
- *I typically put a link on the logo or company name in the top left so users can click there to go back to your home, or first page.*
- *Links on the left or right edge are just as easy to do. Links on the left are most common, and where people expect to find them. Links on the right are less common, but can help make your website stand out.*

13. Where would you like your major links? Type "yes" after the navigation location option you would like.

- Left
- Right
- Top
